Objective

I am a driven software engineer holding a Bachelor's degree in Computer Engineering with a robust foundation in software development, data analysis, and machine learning. I am actively pursuing challenging roles that offer learning opportunities to develop as a dynamic and competent professional.

Education

Jain (Deemed-To-Be University), Bangalore, India   September 2020 - July 2024
Bachelor of Technology in Computer Engineering (Software Engineering)   *CGPA: 8.50/10*

Relevant Coursework: Object Oriented Analysis and Design, Data Structures and Algorithms, Principles of Operating Systems, Computer Networks, Machine Learning, Software Security, DevOps, Cloud Computing, Web Technology, Software Quality Management, IT Infrastructure Technology.

Projects

- **Smart Recommendation System using Collaborative Filtering Approach**
  - Developed an E-commerce Smart Recommendation System using collaborative filtering and machine learning, enhancing personalized product recommendations and customer engagement.
- **Customer Churn Analysis with advanced ML Technology**
  - Analyzed customer churn for a telecom company using SMOTE-ENN and hyperparameter tuning with Randomized-SearchCV in advanced machine learning. Improved churn prediction accuracy through data balancing and optimized model parameters.
- **Personalized Medicine Recommendation System with Machine Learning**
  - Developed a Symptom-Based Disease Diagnosis Web App using Flask and machine learning, providing accurate disease predictions and personalized medical recommendations.

Publications & Presentations

- **E-commerce-based Smart Recommendation System using element-by-element collaborative filtering following with the Machine Learning Technology**   Link

Presented at: 2024 International Conference on Communication, Computing and Internet of Things (IC3IoT)

- **Analysis of Customer Churn for Telecom Company with SMOTE-ENN and Hyperparameter Tuning Randomized-SearchCV Technique in Advanced Machine Learning Technology**   Link

Presented at: International conference on Advancements in Power, Communication and Intelligent system-2024

Skills

Research Skills: Writing - original draft, Writing - review & editing, Methodology, Conceptualization, Formal analysis.

Technical Skills: Python, SQL, DSA, HTML, CSS, JavaScript.

Soft Skills: Creative, Critical Thinking, Problem Solving, Communication, Presentation, Team-work, Leadership, Time Management, Work Ethic.

Awards & Certifications

- **The Chancellor's Scholarship - Jain (Deemed-To-Be University)**
  - Issued by Jain (Deemed-To-be University) · Jul 2020
- **Study in India (SII) – G2 Scholarship**
  - Issued by Government of India · Aug 2020
- **Accenture North America - Data Analytics and Visualization Job Simulation**
  - Issued by Forage
- **Problem Solving (Basic + Intermediate), Python (Basic)**
  - Issued by HackerRank
- **Robotics Course** — Infosys Springboard
